Electrocomponents plc - Trading Update

Electrocomponents plc, the major international high-service distributor of electronic, electrical and industrial supplies, is today giving a trading update ahead of its results for the 6 months ending 30 September 2007.

The implementation of the Group's strategy is continuing with the differentiated EEM and MRO offers increasingly appealing to our customers as shown by the Group's revenue growth.

Revenue during the half year is expected to grow at around 7% for the Group comprising 11% for International and 2% for the UK. Within International, which represents some 60% of Group turnover, sales are expected to grow by around 9% in Europe, 12% in North America and 15% in Asia Pacific. All growth rates are adjusted for trading days and exchange rate movements.

The gross margin of the Group is expected to be around 50.1% for the half year.

Allied, the Group's North American business, is moving to its new warehouse facility in Fort Worth, Texas. The move is progressing well and it is expected to be successfully completed during November 2007. This facility, which is twice the size of the former warehouse, will support the future growth of the business.

While we are watchful of the general macro economic conditions, and those in North America in particular, the Board is confident that this financial year will be another of good progress.

The full results for the six months will be announced on 9 November 2007.
